New-Tech Buyers Guide | www.new-techguide.com

New-Tech Electronic Buyers Guide is a smart online search engine that greatly facilitates interaction between customers in the Israeli hi-tech industry and manufacturers and suppliers worldwide. Users - such as purchasing, development or engineering teams - just type in the search words to find a specific company, or alternately, obtain a list of suppliers offering the product they are looking for. RFQs can then be sent simultaneously, with a single click, to all suppliers on the list - or simply to several vendors chosen by the buyer; launching yet another mutually profitable business transaction.
